### **Complaints could be lodged against Romania in Brussels for abuses against MISA**

Ulla Sandbek, Member of European Parliament, informs she would intervene with Brussels officials if the abuses in MISA case will continue. Sandbek is familiar with tantric sex, having attended in the past the classes of Gregorian Bivolaru.

Apart from being a representative in the European Parliament, Ulla Sandbek is as well a pastor at the Northern Congregation of Copenhagen. In an interview for Prima TV [*one of the national Romanian channels*] she declared that “Grig has a very strong personality”, reason for which many people think he is a clairvoyant. Moreover, she is “very sure that Grig did not take advantage of Madalina”, adding that “if my daughter didn’t want to live with me anymore, I would have felt much better if she was in an organization like MISA”. Concerning the adoration of teenagers for Bivolaru, the parliamentary thinks that “it is as if young girls would be around Richard Gere”.

### **Grieving at the officials’ doors**

Mrs. Sandbek got in touch several times with the Romanian Ambassador in Brussels, from whom she requested clarifications in MISA case. “I requested to know the accusations”, she said, threatening that “if the people – MISA followers – do not receive apologies and compensations for the defamation” she will take measures.
